They are not able to use it to move their cattle across the highway. Participated in the weekly High-Water Conference call with the Emergency Managers throughout the San Luis Valley.
- 6/13** - Attended the Sub District 5 meeting at the Road and Bridge meeting room and listened to their proposed water replacement plan for the Saguache Creek drainage area. Received a call from Sheriff Dan Warwick that the Town of Saguache had a broken water main and needed to contact Bobby Woelz, Emergency Manager, in order to get bottled water for the town residents. Mr. Woelz was contacted and able to notify the proper people to get water for the town of Saguache.
- 6/18** - Attended the Work Session with the Center Conservation District on the contract or proposal for noxious weed spraying in Saguache County. After the Work Session the commissioners drove out to County Road 61 and EE and met with Kit Hopkins on her request to include County Road EE into the county road system. Linda presented the report for the amount of money that the state spends on behalf of Saguache County. Linda hasn't received any bids for windows and doors for the Center Office. The cameras in the Saguache office have been put in. The roof is leaking in the Center Office, which is causing mold to grow. Glen considered this an emergency; therefore, he wrote a \$12,000 check. If nothing gets done then employees need to be removed from the building. The new commodities employee has a baby that she would like to bring to work with her on non-distribution days. Glen didn't think it was appropriate and would make a bad example. Linda requested leave for her father in laws passing.
